I am goal oriented and enjoy overcoming new challenges. I have received an Associate in Arts Degree from MCCCK. My most recent work experience is in landscaping. I worked as a landscaper while completing courses in math, physics, and computer science at MCCCK part-time before transferring to UMKC full-time in Fall 2024. During the Fall 2024 and Spring 2025 semester I was on the Dean's list at UMKC while enrolled in the Computer Science B.S. program. I plan to graduate in Spring 2026 and I am looking for an opportunity to start a career with the skills and experience I have gained.

Education

Undergraduate Science & Engineering - Computer Science B.S.

University of Missouri-Kansas City

– Anticipated Graduation 2026

Associate's Degree in Arts

MCCCK Longview - Lees Summit, MO

December 2019
